

**Clean dishes and
energy efficiency
behind every door**

Jackson®

Why Jackson Conserver® XL Series?

Like all Jackson dishmachines, these competitively priced workhorses offer more standard warewashing features than any other brand. Operation-ready with performance-enhancing features such as built-in chemical pumps and conveniently located controls, Jackson's Conserver Series dishmachines provide all the features you need for optimum cleaning. Since they are sold at a price comparable to other manufacturers' "stripped down" versions, the feature-rich Conserver are among the very best warewashing values you can buy.

Conserver® XL

Exceptional performance meets cost efficiency

Resource Efficient

- Chemical sanitizer reduces demand for hot water, saving on utility bills and reducing operating costs
- Uses less chemical than competitive machines

Exceptional Performance

- Cleans up to 37 racks per hour
- Self-draining stainless steel pump eliminates soil and detergent carryover between the wash and rinse cycles
- Built-in low product indicator light alerts the user when the machines runs out of chemicals
- Dump and fill operation disposes of dirty water, replacing it with a fresh water rinse every cycle
- Built-in chemical pumps and priming switches are standard
- Built-in scrap accumulator prevents drain from clogging

Easy to Install, Operate and Maintain

- Control box and chemical pumps are located on top of the machine, providing convenient access
- Interchangeable stainless steel wash arms are easily removed for cleaning and are built to withstand the demands of a busy operation
- Auto-start makes washing fast and easy
- Field convertible from straight-through to corner and vice versa
- Dual-point drain connections allow for versatile installations

Self-draining stainless steel pump

External sump

Available in two high-performance models, Jackson's Conserver Series dishmachines will help you conserve resources, enhance performance, and make operation and maintenance easy.

Conserver® XL2

Dual-rack machine provides increased throughput

Resource Efficient

- ENERGY STAR® qualified
- Chemical sanitizer reduces demand for hot water, saving on utility bills and reducing operating costs
- Uses less chemical than competitive machines

Exceptional Performance

- Cleans up to 74 racks per hour
- Accommodates two racks, side by side, and cleans up to 74 racks per hour
- Self-draining stainless steel pump eliminates soil and detergent carryover between the wash and rinse cycles
- Internal sump saves space and provides aesthetic appeal
- Built-in low product indicator light alerts the user when the machines runs out of chemicals
- Dump and fill operation disposes of dirty water, replacing it with a fresh water rinse every cycle
- Built-in chemical pumps and priming switches are standard
- Built-in scrap accumulator prevents drain from clogging

Easy to Install, Operate and Maintain

- Control box and chemical pumps are located on top of the machine, providing convenient access
- Interchangeable stainless steel wash arms are easily removed for cleaning and are built to withstand the demands of a busy operation
- Auto-start makes washing fast and easy
- Available in either straight-through or corner models
- Dual-point drain connections allow for versatile installations

Scrap accumulator

Interchangeable wash arms

Complimentary Performance & Installation Check

From the very beginning, Jackson is there to ensure your equipment is working to its full potential. At the time of installation, our Jackson Authorized Service Agent (ASA) will run the machine to verify that all electrical, water, and drain hookups are correct, the machine turns on and off, there are no leaks, and the pumps are rotating in the proper direction. If the installation is performed by anyone other than a Jackson ASA, we recommend that the customer contact Jackson Technical Service to schedule our Performance and Installation Check. After the installation is powered and plumbed, this complimentary Jackson service verifies the installation; checks and adjusts temps, cycle times, and parts; and evaluates all the operation/performance capabilities of the unit.

About Jackson

Jackson WWS is a full-line supplier of high-quality commercial dishmachines including flights, conveyors, door-types, glasswashers and undercounters. Founded in 1925, Jackson stands by their "Clean the First Time®" commitment with dishmachines that deliver optimal cleaning performance while reducing labor, chemical and utility costs. With more standard features, lower operating and acquisition costs and our network of factory-certified technicians, Jackson sets the standard for warewashing. For more information about Jackson and its full line of warewashing solutions, please visit www.jacksonwws.com or call 1.888.800.5672.
